HAFIZA RAMISHA NOOR

Frontend Developer | React.js & Modern Web Technologies

ramishanoor5@gmail.com • Gujrat, Pakistan

github.com/ramishanoor5-pixel • linkedin.com/in/hafiza-ramisha-noor-b65805375

PROFESSIONAL SUMMARY

Computer Science undergraduate at the University of Central Punjab specializing in Frontend Web Development and responsive applications. Hands-on experience developing single-page web applications utilizing **React.js**, **JavaScript (ES6+)**, **Firebase (Auth & Firestore)**, and **RESTful APIs**. Completed a remote web development internship at ELITE.Org, shipping 6 client-ready applications on schedule. Proven track record of translating product designs into high-performance, user-centric web applications.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Web Design, DOM Manipulation

Backend & Cloud: Firebase (Authentication, Cloud Firestore, Realtime Database), RESTful APIs, JSON

Tools & CMS: Git, GitHub, WordPress, Elementor, VS Code, Postman, Basic SEO Optimization, C++

TECHNICAL PROJECTS

JobNest – Modern Job Portal Web Application

React.js • Firebase • REST API

Technologies: React.js, Firebase Auth, Cloud Firestore, RESTful APIs, Tailwind CSS

- Developed a responsive job portal web application connecting job seekers with hiring companies through an intuitive interface.
- Integrated **Firebase Authentication** to provide secure email/password and OAuth sign-in with role-based access control.
- Architected real-time CRUD operations utilizing **Cloud Firestore** for job postings, resume submissions, bookmarking, and tracking.
- Connected **RESTful APIs** with asynchronous state handling to deliver instant keyword search and categorized job listings.

Amazon E-Commerce Web Platform

HTML5 • CSS3

Technologies: Semantic HTML5, CSS3, CSS Grid, Flexbox, Responsive Web Design

- Engineered a responsive e-commerce web storefront inspired by Amazon utilizing semantic HTML5 and modern CSS3 (Flexbox & Grid).
- Designed and styled modular UI components including multi-tier navigation, search bar, product showcases, and footer layouts.
- Implemented mobile-first CSS media queries and smooth hover transitions ensuring seamless cross-device compatibility.

Mehfil-e-Zauq – Production Web Platform

WordPress • Elementor • ELITE.Org

Technologies: WordPress, Elementor, Custom CSS3, On-Page SEO (ELITE.Org Internship)

- Designed and deployed an interactive, client-style web platform with structured navigation, custom typography, and branded page layouts.
- Tailored responsive layouts using Elementor and custom CSS3 stylesheets, ensuring 100% cross-device compatibility and SEO optimization.

Interactive Frontend Applications Suite

JavaScript (ES6+) • DOM • Storage

Technologies: JavaScript (ES6+), DOM Manipulation, LocalStorage, CSS3 (ELITE.Org Internship)

- Engineered a modular suite of interactive web tools including **Content Manager & Saver**, **Weekly Habit Tracker**, and **Quiz Timer**.
- Implemented dynamic DOM manipulation, real-time input validation, and browser LocalStorage for reliable client-side data persistence.

PROFESSIONAL EXPERIENCE

Web Development Intern • ELITE.Org

Remote • 6-Week Sprint

- Engineered and deployed 6 functional web applications within an intensive 6-week sprint meeting all milestone requirements.
- Implemented responsive layouts, interactive DOM tools, and cross-browser CSS styling across multiple client-facing projects.
- Utilized Git and GitHub for version control, collaborative code reviews, and structured repository management.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Currently Enrolled

University of Central Punjab

KEY ACHIEVEMENTS & HONORS

- **ELITE.Org Internship Excellence:** Successfully completed and delivered 6 end-to-end web projects in 6 weeks with zero sprint delays.
- **Hardware & IoT Project:** Programmed an Arduino Obstacle Avoiding Car using Ultrasonic Sensors, Servo Motors, L298N driver, and I2C LCD.
